

## The Curriculum for Excellence

On reaching the age of 3 your child will transition to the Curriculum for Excellence. This National Curriculum represents Scotland's vision for education of all children. It aims to raise standards, improve knowledge and develop skills, ensuring that every child should experience a broad education that develops skills for learning, for life, and work with a real focus on literacy and numeracy and promotes an active and healthy lifestyle.

Through a play based curriculum staff will plan a wealth of opportunities outdoor and indoor, supporting your child to express him/herself, build independence, solve problems, make choices and decisions and develop new skills.
